2. Execute and Display the Results of the Following Commands in Kali Linux Operating Systems

1. less Command

Use of Command:
The less command is used to view the contents of a file **one page at a time**. It is useful for reading large files without opening the entire file at once.

Aim: To view the contents of a file one page at a time.

Command:

cat > sample.txt

Enter:

Welcome to Kali Linux

This is a sample text file.

Linux commands are easy to learn.

Press **Ctrl + D**, then execute:

less sample.txt

Output:

Welcome to Kali Linux

This is a sample text file.

Linux commands are easy to learn.

Result: The less command displays the file contents page by page.
Press **q** to exit.

2. more Command

Use of Command:
The more command is used to display the contents of a file **one page at a time**. It is commonly used to read long text files.

Aim: To view the contents of a file one page at a time.

Command:

more sample.txt

Output:

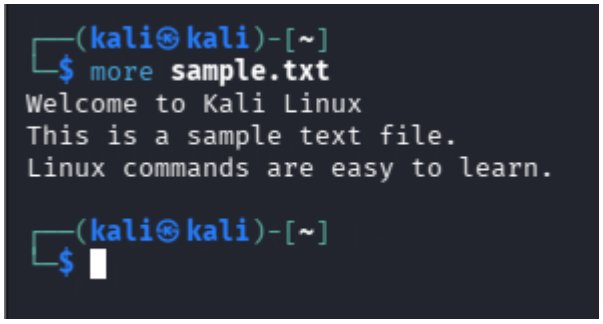

Welcome to Kali Linux

This is a sample text file.

Linux commands are easy to learn.

Result: The more command successfully displayed the contents of the file page by page.

Press **Enter** to move down and **q** to quit.

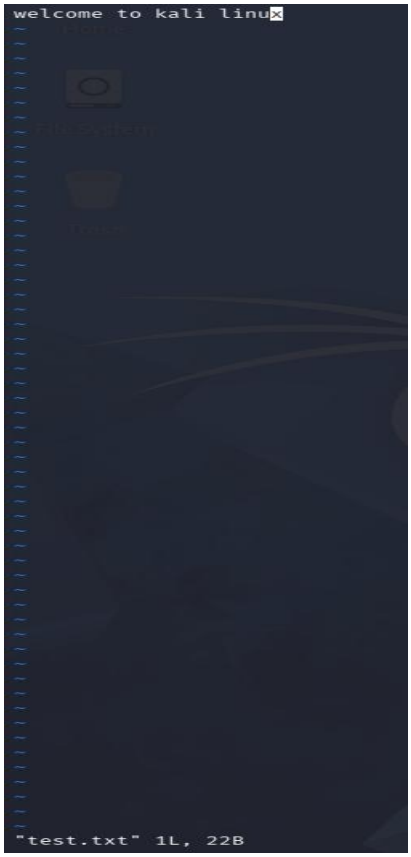

3. VI COMMAND

Command:

vi sample.txt

Use: The vi command is used to create and edit text files.

Result

Thus, the less, more, and vi commands were successfully executed in Kali Linux and their results were displayed.
